

Whether you support me or not I would ask a small favor, I feel it is important to recognize the following:

If any of you have time PLEASE send an email of support to my BOE and Supt....IF I actually obtain the position they have voted unanimously to support with the days necessary to fulfill the duties of regent. They didn't just step up to the plate, they hit it out of the park. They have given us all the chance for the "little guy" a voice; they have given all of us the chance to be part of history instead of merely spectators in it.

Thank You,

John
